

# UDL Design Review Panel

The aim of the Urban Design London (UDL) Design Review Panel is to provide expert impartial design advice and guidance.

UDL provide reviews for TfL streets and public realm schemes, and large scale transport and infrastructure projects. We also support UDL members who do not have their own in-house Design Review by managing bespoke panels on their behalf.

The UDL Design Review process provides a critical friend to all parties. Our aspiration is that it will lead to better design outcomes, and give greater confidence to decision makers to support innovative, high quality design. It operates in the public interest and always considers the best outcome for the whole community.
